- Handicap and Averages:** Handicap will be based on individual's entering average for the tournament and will be based on 80% of 230.
Entrant's tournament entering average will be the highest league average from the 2008-2009 AND 2009-2010 league seasons (winter and summer leagues included - based on a minimum of 21 games). Example: If the bowler's highest 2008-09 season's average is 175 and 170 for the 2009-10 season, the tournament entering average will be 175. If none of the above, you may use your highest current 2010-2011 season average based on a minimum of 21 games as of the date of bowling, provided sufficient verification is supplied. All other entrants will bowl scratch (230). Canadian Tenpin Federation averages will be accepted with proper verification. Averages must be verified by the bowler's Association Secretary/Manager or a copy of the Average Book which includes a copy of the front cover.
League standing sheets are not acceptable forms of average verifications as they do not indicate all leagues bowled.
Sport Bowling Leagues: Any person who has an average in a USBC designated Sports Bowling League must submit his/her adjusted Sport Bowling league average utilizing the USBC Average Adjustment Scale.
- When the previous seasons' average is used, and at the time of bowling an entrant has a current average for 21 or more games that is 10 pins or more higher than the prior season's average, the current average must be used (Rule 319a-2 (10-pin rule)).**
- Entrants who have qualified for a cash and/or merchandise prize of \$600 or more in the standings prize list in any tournament, including all-events, special features such as side pots and brackets, special prizes and donated prizes within the previous 12 month period must report their actual score, position, and amount won to the Tournament Management at time of bowling for possible re-rating. Failure to comply with either of these provisions shall be cause to forfeit tournament entry fee and prize winnings. It is the entrant's responsibility to report his/her scores in any tournament where the prize payment has not been made but in which he/she has qualified for \$600 or more.**
- Rule 319e shall apply to all participants in the tournament. If the bowler's cumulative tournament average of 21 games or more over the past 12 months is 10 or more pins higher than the entering average, the cumulative tournament average must be used. Tournament average to include prior events bowled in 2010 Storm National Mixed Championships. Ex: If a bowler has bowled 18 games in prior tournament(s) and bowls a 3-game event in the 2010 Storm National Mixed Tournament, the bowler has now 21 cumulative tournament games and could be subject an average re-rate according to Rule 319e. It is each bowler's responsibility, not the team captain, to keep records of each tournament including the names of the tournaments, dates, scores, and prize winnings.**
- Tournament Management reserves the right to re-rate a bowler's average prior to the start of any event (Rule 319c). It shall be each entrant's responsibility to verify the accuracy of his/her average whether originally submitted by the entrant, his/her team captain or other. Failure to use proper average shall **DISQUALIFY** score if submitted average is lower than actual average thereby resulting in a lower classification or more handicap. Prize winnings shall be based on the submitted average if it is higher than the actual average. In the case of teams of two or more entrants, the average shall be combined to determine whether the correct total is higher or lower than the submitted total (Rule 319a-3).
- It is the bowler's responsibility to report if he/she has ever been subjected to an adjusted or re-rated average or refused an adjusted or re-rated average prior to bowling in an event.
- All other USBC rules not covered herein shall apply and this tournament will be certified by USBC.
